

***It's an exciting time for Friends of Chrisholm and Chrisholm Historic Farmstead. The new "green" composting restroom is finished and operational. Thanks to all who played a role in making this project a reality.***

A special thank you to our major donors on this project – SHP Architects, Messer Construction, Middletown Community Foundation, Fitton Family Trust, Duke Energy, and Butler Rural Electric Community Connection.

And to all of our individual contributors...we appreciate your continued support of the projects and activities at Chrisholm Historic Farmstead.

The restroom contractors – Messer Construction

Representatives from Messer Construction, Vice-President Allen Begley and Project Leader Tony Lemen were on hand for the restroom dedication
